

Providing Sterilization & Laboratory Services
for the world's most innovative healthcare
companies.

Announcement

Visit Medistri at CPHI Frankfurt 2025

October 27th 2025

As the pharmaceutical industry gathers in Frankfurt for CPHI 2025, Medistri joins the conversation with a clear purpose: to connect innovation, speed, and quality in every stage of healthcare manufacturing.

Medistri will be present at Booth 8.0H78, welcoming partners and industry professionals to explore how our integrated sterilization, laboratory, packaging validation, and logistics services can strengthen their development and supply strategies.

By combining advanced infrastructure with regulatory expertise, Medistri enables manufacturers to accelerate time-to-market while ensuring uncompromising quality and compliance.

Throughout the exhibition, Sean Nilforoushan, Mélanie Bangerter, Gabriel Vachey and Ana Burlet will be available to discuss your upcoming objectives and collaboration opportunities for 2025 and beyond.

Medistri will be exhibiting at Booth 8.0H78 in Messe Frankfurt, Germany, from 28 to 30 October 2025.

To get in touch or to schedule a discussion, send us an email at development@medistri.com or contact us [here](#).
