

Providing Sterilization & Laboratory Services for the world's most innovative healthcare companies.

FOR IMMEDIATE RELEASE - March 27th 2026

## Medistri Announces its Second Sterilization Line in HU

**EN** - Medistri, a leading provider of contract sterilization & laboratory services for healthcare companies, is excited to announce the expansion of its sterilization capacity in Hungary with the addition of a second EO sterilization chamber.

This investment of around 2.5 million USD, developed over 18 months of work, will allow Medistri to continue providing efficient and reliable sterilization services to a growing client base, with an increase in capacity. The new chamber will be used primarily for the sterilization of pharmaceutical & medical devices and strengthens supply chain resiliency for global manufacturers, while also supporting local innovators.

*"It's a pleasure to get the capacity in place for our customer based in Eastern Europe, a great teamwork"* said Shoko Nilforoushan, Founder & General Manager at Medistri

Founded in 2006, Medistri has been focused on building infrastructure for the healthcare industry. Companies of every size, from startups & university projects to Fortune 500 companies use our services to save time, scale and focus on what they do best.

Medistri is committed to work closely with our clients and partners needs and following strict sterilization guidelines to ensure the highest level of safety and effectiveness.
